

SCHOLARSHIP OF TEACHING AND LEARNING (SoTL) WORKSHOPS FOR FACULTY – SPRING 2017

At Illinois State University, we define SoTL as the “*systematic reflection/study on teaching and learning [of ISU students] made public.*” This definition was created to include a wide range of research (broadly defined) on the teaching and learning of our ISU students that is presented, published, created, or performed.

To learn more about SoTL, consider attending one of the following events this semester:

IRB Considerations for SoTL Research Brown Bag

Join us for an informal brown bag Q&A session to discuss IRB considerations for SoTL research projects. We welcome faculty and students engaged (or planning to engage) in SoTL research and hope to address questions important to human subjects research when studying teaching and learning (e.g., informed consent processes, participant confidentiality/anonymity, risk to participants). Stay for the whole 90 minutes or drop in as you are able. Bring your lunch AND your questions and join us!

Friday, 2/24/17 from 11:30am-1pm, ITDC Conference Room

Brown Bag Facilitators: Alycia Hund, IRB Chair & Jen Friberg

Intro to SoTL Workshop Series (for those new to SoTL)

This series of 2 workshops introduces attendees to SoTL, describes ways to engage in SoTL inquiry, and examines the benefits of SoTL as part of a productive research agenda. Examples of SoTL work will be provided. Resources to support SoTL work will be reviewed. These workshops have been designed for an audience with little to no prior experience with SoTL. Participants must commit to attending both Intro to SoTL workshops in order to register for this opportunity.

All participants present for both Intro to SoTL workshops will earn a \$200 stipend. Light snacks and beverages will be provided. Door prizes will include SoTL texts and resources.

Workshop 1: What is SoTL (2/27/17 from 1-2:30pm, ITDC Rm 103B)

Workshop 2: Developing a SoTL Project (3/27/17 from 1-3pm, ITDC Rm 103B)

Workshop Facilitator: Jennifer Friberg

Qualitative Research Methods for SoTL Research

SoTL research can be quantitative in nature, but qualitative methodologies can also be used to systematically study teaching and learning. During this workshop, four ISU faculty who have completed SoTL projects using qualitative methods will discuss their use of these approaches to data collection and analysis. Lessons learned will be shared, as well as suggestions for faculty considering qualitative SoTL projects. Bring ideas for your next SoTL project as facilitators will facilitate small group discussions about possible uses of qualitative methods for your future SoTL projects. This workshop is intended for individuals with a basic understanding of SoTL inquiry. **All participants attending this workshop will earn a \$100 stipend.** Light snacks and beverages will be provided. Door prizes will include SoTL texts and resources.

Tuesday, 4/4/17 from 1-3pm, ITDC Rm 103B

Workshop Facilitators: Jennifer Friberg, Bill Anderson (FCS),
Phyllis McCluskey-Titus (EAF), and Michaelene Cox (POL)

Space in these workshops is limited! RSVPs will be accepted through February 24th. Once all available spots are filled, a 5-person wait list will be created, in case of cancellations.

Have questions or wish to reserve a seat for one of these opportunities?
