

Consulting on SoTL Research Projects Available

The Cross Chair in the Scholarship of Teaching and Learning, SoTL scholar-mentors (<http://sotl.illinoisstate.edu/contact/>), and/or SoTL Resource Group Members (http://sotl.illinoisstate.edu/resources/resource_group/) are available to help you with a SoTL project.

These consultants can assist you in refining SoTL topics or research questions, generating or improving study designs, thinking about different ways to measure learning or other student outcomes, helping with ideas for analysis of data, working with you to improve a SoTL internal or external grant proposal, and sharing ideas about how/where to present, publish, or share alternative representations of a SoTL project, results, and implications.

To inquire about or schedule a SoTL consultation, you may contact, directly, individuals listed at the above URLs and/or email the Cross Chair at sotl@ilstu.edu. Availability depends on the type of expertise needed and the schedules of the Chair, mentors, and Resource Group members.
